

Micronav

The Micronav is built on top of the Panasonic FZ-M1, a professional and military graded tablet featuring MIL-STD-810G and a 5' Drop and All-weather IP65 Dust and Water-resistant Design. Because of its size, the Micronav is easily portable. Mostly used for defense purposes. The Micronav is a universal and radio agnostic ground control station. Also built on top of the military-grade Panasonic FZ-B2 and FZ-S1 Android tablets. It is a well-proven, secure, and reliable solution which is easily adaptable to your hardware and software requirements.
