

Pico Hub

The Nett Warrior (NW) Pico Hub is a compact, lightweight and robust Nett Warrior hub that has been specifically designed for distributing data and power in demanding environments, particularly for dismounted soldier applications. It seamlessly integrates with the SRM series of products and supports USB1.1 and USB2.0. With its scalable design, the NW Pico Hub enhances the adaptability of soldiers by providing a flexible solution. It can be utilized across various mission types, such as equipping soldiers with situational awareness or supporting unmanned vehicles.
